Information about our specialists is subject to change. This directory is correct as of January 2025.

World-class orthopaedics and sports medicine

Fortius Clinic was founded by a group of specialists with a shared vision - to push the boundaries of orthopaedics and sports medicine and achieve new standards for clinical excellence.

Today we are more than 200 specialists from surgeons to sports physicians, rheumatologists, pain management specialists and radiologists, each with specific knowledge and expertise in one area of orthopaedics and sports medicine.

We are recognised as the leading expert in elite sport and the preferred clinic of choice for many international athletes, Premier League football and rugby clubs. We are an accredited FIFA Medical Centre of Excellence with referrals coming from across the world.

Our services

- Consulting in orthopaedics, spinal conditions, rheumatology, sports and exercise medicine, radiology and pain management
- Imaging including digital X-ray, ultrasound, MRI, CT and interventional radiology
- Nursing for treatments associated with musculoskeletal conditions
- Biomechanical and gait analysis
- Orthopaedic surgery including robotic-assisted joint replacement and complex spinal procedures

FIFA | MEDICAL CENTRE
OF EXCELLENCE

All Fortius sites are rated Outstanding or Good by the Care Quality Commission.

Sharing our expertise

Fortius Clinic and its consultants are committed to providing continued education and sharing knowledge and best practice in orthopaedics and musculoskeletal medicine.

We host an annual educational programme across all our clinic sites aimed at healthcare professionals including physiotherapists and GPs. The programme involves lectures, webinars and in-practice CPD and enables our consultants to pass on the latest findings and practices.

- Regular lectures covering a range of topics. An opportunity for our referrers to expand their knowledge and meet our experts
- Informal evening networking events which help to build professional relationships with our leading orthopaedic specialists
- Consultant led CPD with presentations tailored to specific clinical and educational needs at referrers' clinics and practices
- Clinical shadowing in clinic or theatre to help referrers understand how consultants work
- Introductions with a consultant to discuss patient experience, clinical issues and patient pathways
- Webinars for those who can't attend our in-person events

For more information about our educational programme, email marketing@fortiusclinic.com or join our mailing list here
